A CALL FOR A UNITED ACTION:

Say 'No' to the Anti-Immigrant "Secure Communities" Program!

Sat. Feb. 12th 1 PM Massachusetts State House MBTA: Red & Green lines to Park St.

On Saturday, February 12th, people from across Massachusetts will come together at the State House to fight against the State's intention to join the anti-immigrant and racist "Secure Communities" program.

Under the guise of public safety, "S-Comm" endangers the civil rights and security of all and is particularly an attack on immigrants and people of color. The federal program mandates local law enforcement to cross check the fingerprints of those arrested against the Homeland Security's database in search of immigration status.

While supposedly targeting violent offenders, the vast majority of those detained and deported are considered "non-criminals". This would include

The "S-Comm" program is part of an overall effort to target immigrants and maintain a permanent second-class status for millions of workers. The time is now for communities across the state to stand together against "S-Comm" and all anti-immigrant programs! Undocumented immigrants are not criminals!

Join us on Saturday, February 12th, and beyond, to demand:

- **★No to "Secure Communities" and all anti-immigrant programs!**
- **★No human being is illegal full rights for all immigrants!**
- **★Stop the raids and deportations now!**
