

Resist Deportations!

May Day Mobilization International Workers Day

The government in Washington has launched a generalized assault on our lives, rights and living conditions. From the racist attacks on Muslims, Migrants, and African-Americans to attacks on healthcare, women, and LGBT folks, to attacks on our environment and education, working people are under fire. The leading edge of this assault is the criminalization and attacks on Migrants. Enough is enough! An injury to one is an injury to all. We must take our fight to the centers of power. Mobilize on May Day, International Workers Day!

Monday, May 1, 5:00 PM
